iTero Element Foundation software

Software modules and features that enhance digital workflow, simplify user experience and aid patient education.

General

- ▶ Patient scans, open-export, and web-based view
- ▶ iTero TimeLapse technology
- ▶ 3rd party dental practice management system (DPMS) integration

Restorative

- ▶ Restorative scans, open-export, and web-based view
- ▶ Restorative lab workflow
- ▶ Chairside milling, implant, scan body workflow

Restorative Foundation does not include Invisalign® workflow and connectivity.

* Following initial two-year service plan, additional charges will apply for remote support connection and repairs for customers not on subscription plan. Additional charges may apply for software upgrades and cloud storage for customers not on a service plan. There is no commitment to move to a service plan after 2 years, but customers have an option to purchase a service plan after initial term.

** Based on 10,000 scans, mean transfer time, defined as the time between the practice sending the iTero scan and the dental laboratory receiving it, is 4.6min. May vary based on internet connection. Data on file at Align Technology, as of February 12, 2020.
